

How to Schedule an Appointment on the Peehip Online Calendar

Go to website: <https://dph1.adph.state.al.us/PublicCal/>

- ❖ Go to dropdown list of counties: select your county, then click on the filter tab
- ❖ If you know the date of your school clinic, please type in the date of your school clinic in the “Date From and Date To” – this will ensure that the calendar will only pull up for your county and for that particular date.
- ❖ If you only select the desired county from the dropdown list and click “Search for Events”, then it will pull up all clinics for desired county for **current month**.
- ❖ When you see your desired clinic location, click on “Schedule an Appointment” tab.
- ❖ You will see listing of times available – if you see a **green checkmark**, then appointments are available for this time slot. Under “Available Openings” you will see how many appointment slots are available for that time slot.
- ❖ If you see a **red checkmark** – that means that all appointments for that time slot are full.
- ❖ Please put in your personal data to schedule the appointment.
- ❖ It is always **best** to send yourself **appointment confirmation by either email or text**.
