Executive Summary
Introduction

Every school system has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school system makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school system stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school system, and the kinds of programs and services that a school system implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school system with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the community will have a more complete picture of how the school system perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school system to reflect on how it provides teaching and learning on a day to day basis.
Description of the School System

Describe the school system's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school system serves?

Lauderdale County, named for Colonel James Lauderdale of Tennessee, who served under Andrew Jackson, is located in the heart of the beautiful Tennessee Valley basin of Northwest Alabama. The county is composed of many small communities, some established in early 1800 with a rich history. The county is comprised of 718 square miles with 14% of that being in water. The abundant water power in Lauderdale County was important for industrial use, for carrying cotton to cloth mills, and for making low cost electrical power today.

Current census numbers show a population for the county of slightly over 92,000. The median income for Lauderdale County households is $33,354 and the cost of living is approximately 10% below the national average. Data from the 2010 census show the ethnic/racial make-up as White, 84.4%; Black,10%; and other, 5.8%.

Many interesting and historic sites are located in or near Lauderdale County including Ivy Green, birthplace of Helen Keller; Alabama Music Hall of Fame; Frank Lloyd Wright's Rosenbaum House; Prehistoric Indian Mounds; and Joe Wheeler State Park.

The County is served by two school systems: Lauderdale County School System (LCSS) and Florence City Schools. LCSS first graduated students in 1913 and is dedicated to preparing students for successful futures by providing quality education today. LCSS operates with the understanding that education is a cooperative effort among its teachers, parents and the community.

LCSS is managed under the direction of its five board members who are elected at large by voters outside the city limits of Florence. The superintendent is selected by all voters in Lauderdale County. Board members serve six year terms, and the Superintendent serves a four year term. The present superintendent has served in the role since January, 2006, and is not seeking reelection in the November 2012 superintendent election.

LCSS is presently comprised of ten schools and a Career Technical Center serving 8,870 students. In recent years, there has been some consolidation and reduction in the number of schools in the district. Enrollment has declined four percent over the past five years and the number of students receiving free or reduced lunch has increased over eight percent. (Table 1) The majority of students enrolled in the district are white (95%) and there are slightly more male students than female. (Table 2)

LCSS employs 653 instructional staff members, 61% of the teachers have advanced degrees of a masters or higher. LCSS has seventeen students for every full-time equivalent teacher, with the Alabama state average being sixteen students per full-time equivalent teacher.

LCSS serves the communities of the county with six schools that serve K-12, three schools that serve K-6 and one school that serves 7-12. Nine schools are Alabama Reading Initiative Schools (ARI) staffed with an on-site reading coach. Four schools have Preschool/Pre-K Programs. Based on the geographical needs of the district, LCSS has 84 buses that run approximately 5,000 miles per day, serving over 4,000 students. Additionally, 17 vocational buses travel approximately 440 miles per day. LCSS spends $8,551 per pupil in current expenditures. The District spends 63% on instruction, 30% on support services, and 7% on other.

The District has system wide computer application programs with each school having computer labs in addition to computers in the classrooms. Seven schools have Distance Learning Classes through ACCESS and Northwest Shoals Community College. All schools provide a challenging curriculum, advanced courses/advanced placement classes and/or dual enrollment classes. Students have the
opportunity to take classes at the award winning Allen Thornton Career Technical School.
System’s Purpose

Provide the school system’s purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school system embodies its purpose through its program offerings and expectations for students.

LCSS serves all students in Lauderdale County outside the city limits of Florence. LCSS’ vision is Together!..Committed to Excellence Through Education. As part of the process for accreditation, this vision was developed with collaboration of stakeholders. It articulates what LCSS strives to be for all the students and serves as the basis for the LCSS Strategic Improvement Plan. Copies of the vision and Strategic Improvement Plan can be found in the LCSS AdvancEd Portfolio, on the web-site, posted throughout the district and in district publications.

Mission and Core Beliefs:
LCSS will maintain a research based curriculum that keeps pace with the needs of society. The curriculum will be challenging, based upon a core standard of knowledge, and promote higher level thinking skills. Students will develop the ability to apply knowledge and make appropriate decisions. The curriculum will meet the physical, social, artistic, and cognitive requirements of each child and promote responsible citizenship.

LCSS will measure and assess all aspects of the district: educational programs, instruction, student performance, financial management, community relations, employee relations, and facility utilization and management for continuous improvement and accountability.

Students will be provided an opportunity for an education of the highest quality in which their learning styles are appreciated and their diversity is valued. Student’s will be encouraged to value education as well as recognize their responsibility for learning. As active partners in their education, the school district will hold students accountable for their actions while providing an atmosphere that nurtures student development.

LCSS will encourage and foster a safe atmosphere which values excellence and mutual respect. LCSS will actively support cooperation and collaboration among a highly committed faulty, staff and administrator, students, and parents and community stakeholders.

LCSS will encourage and provide frequent opportunities for open two-way communication with parents and community stakeholders.

LCSS will build the capacity of the district education leadership through frequent professional development, mentoring, support and accountability. LCSS recognizes that increased leadership capacity over time is the most productive way to bring about improvement that can be sustained.

LCSS will continually evaluate the most appropriate school environment for the district and community, considering demographics and population of the community, preferred school size, transportation, parent involvement, and budget constraints.

LCSS will actively partner with community groups, including businesses, civic organizations, and local government to provide resources and facilities to ensure all students receive quality education.

LCSS will maintain a commitment to continual improvement and accountability in all areas of education.
Notable Achievements and Areas of Improvement

Describe the school system's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school system is striving to achieve in the next three years.

LCSS enjoys strong community support. In addition to PTOs and Booster Clubs, the communities provide after-prom breakfasts, backpack meals, school supplies and clothing, and teacher appreciation events. In turn, students coordinated a huge relief drive after the ravaging tornadoes in April 2011.

A walk through LCSS classrooms shows many opportunities to meet individual educational needs of students such as dual enrollment/dual credit courses through various universities, AP courses, technology integrated into the curriculum with a large variety of equipment, instruction frequently project based, and students having the opportunity to attend a specialized performing arts program. Each school in the system is fully Wi-Fi capable. The career technical center houses eleven programs with each high school hosting additional career technical courses.

Classroom technology is integrated into the curriculum at all schools. Equipment such as Interwrite Pads/Mobis, Elmos, Interactive Smart Boards, Classroom Response Systems, and graphing and TI-Nspire calculators make learning more interactive and relevant. Some schools have classroom carts of notebooks through the 21st Century grant and some have IPad carts. Online tools including Moodle, Edmodo, Survey Monkey, RubiStar, Audacity, and Google Docs are used by teachers and students to enhance learning and assessment. Teachers and lab managers have a great variety of software to use to supplement and enhance courses of study. Some of the programs available are Classworks, Destination Reading, Destination Math, Reading Horizons, Discovering Intensive Phonics (DIP), A+, Apex, Kidspiration/Inspiration and Earobics. All libraries at Title One schools have classroom sets of Nooks with books available for classroom study or individual learning.

Our system has 3 JAG (Jobs for Alabama Graduates) grants. The at-risk students in this program compete in regional and state competitions. We have had several state winners.

Dropout prevention interventions are in place at the high schools with credit recovery and credit rescue. The system has an alternative academic school called LIFE (Learning is for Everyone) Academy. At-risk students are referred by the home schools and recommended by a system committee. Most of the instruction is delivered through computer software. This program has been highly successful in keeping students on track to graduate.

Continuous professional development for staff is provided on relevant topics and brought to the school to provide expertise and support. Administrators and teachers with instructional leadership degrees are provided additional opportunities for professional learning.

Our system provides a PLU (Professional Learning Unit) for all practicing administrators in our system as well as all teachers with an instructional leadership degree. We rotate a state PLU one year with a local PLU the next year. This past year we completed an ACLD approved PLU on the 7 Habits of Highly Effective Administrators and applied all of the habits to administrative and instructional leadership tasks. We partnered with our Inservice Center to provide this training and utilized a Moodle for administrators to read articles and post reflections and responses.

LCSS is proud of the achievement of its students. The District has made AYP three of the last four years. (AYP was not met for the 2009-10 SY 2012-2013 Page 7 © 2012 AdvancED www.advanc-ed.org
Goals were met in all areas except in Special Education. The District is very proud the graduation rate improved during these years from 89% to 91%.

LCSS is proud that the number of students taking the ACT increased by 17%, although total enrollment for the district has decreased. Additionally, the student scores have increased to become consistent with the state average. In the areas of English composition, algebra, and social science, LCSS students exceeded the state average.

These and many other opportunities provide a great place for student learning as evidenced by our test scores, scholarship monies awarded to students and teacher retention.

The primary challenge of LCSS is to provide appropriate educational environment that is best for the needs of all students while balancing academic and fiscal needs.
Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

The Lauderdale County School System believes we can improve in all areas that impact student learning. We have involved all stakeholders in the continuous improvement process at the local and district level. The self-assessment has allowed all stakeholders, including administrators, teachers, support staff, parents, students, community members, and business leaders to research and understand the five standards and analyze the system’s effectiveness in relation to the indicators. Research of the data has, and will allow the system to evaluate our strategic plan and institute changes into future action plans. We will continue to review and monitor various sources, set goals, revise and develop our continuous improvement plans and recommend changes as needed. We value input from internal and external stakeholders in order to maximize the effectiveness of the strategies and suggestions provided by them. By doing so, we can improve upon the level of services provided to the students of the Lauderdale County School System.
Self Assessment
Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.
The system maintains and communicates at all levels of the organization a purpose and direction for continuous improvement that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence the External Review team members may be interested in reviewing.

The strength noted in Standard 1.1 is the district's purpose. The purpose is reviewed yearly by administration and board personnel and
communicated to stakeholders through the schools. The system’s purpose is focused on students’ achievement and success in all areas of their lives. During the AdvancEd process, the system chose to implement a stronger review and revision policy by having a committee made up of representative stakeholders to annually review the vision and mission / core beliefs statement as to the on going strategies and policies of the board and individual schools’ leadership teams. The committee will submit a review status report on the implementation of the mission and vision statement system- wide and, as needed, draft revisions to the existing purpose. The review will include the effectiveness of communicating this purpose to all stakeholders. A review report will be available at the central office and individual schools for all stakeholders to review.

Indicator 1.2
The strength of this indicator is that all schools have a vision and mission / core belief statement that was developed by the stakeholders for that school. The schools also review and develop new eCIP Plans each year which annually review the purpose and success of all students. Procedures for monitoring feedback are presently in place. During the Advanced Ed process, the system reaffirmed that the communication between all stakeholders was of vital importance and was challenged to improve two-way communications between schools and stakeholders. Developing the shared vision and mission core belief statement for the system and schools strengthened the commitment made by all stakeholders to bond to a shared belief that together we were committed to achieving excellence in all things. Sharing the system’s vision and mission core beliefs while allowing individual schools their own identity shows strength through unity.

Indicator 1.3
The system strength in this indicator is that the system has a commitment of shared ideas and core beliefs about teaching and learning and is reflected by communication among system leaders, school leaders and staff. The system provides two-way communication between the schools and promotes a shared vision and belief among the schools. The system leadership and staff hold one another accountable to high expectations for professional practices. The school leadership and system personnel meet regularly to exchange ideas and discuss policy. Professional development is available to all personnel which allows for educational growth and shared experiences. The system, school leadership and teachers are committed to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills; however, evidence such as drop out rate, AYP, PST referrals, and graduation rates indicate a lack of success by some students. Through the AdvancEd system accreditation process, the system and schools can work more closely and strengthen procedures that continually analyze, monitor, revise, and implement plans that will allow for all students to achieve educational success.

Indicator 1.4
Strengths noted included Continuous Improvement Plans. The CIPs are reviewed and developed each year by every school. The plan is developed by a committee of all stakeholders. Continuous school improvement which leads to the success of all students is the goal and vision of all stakeholders. This plan is made available to all stakeholders. Through the Advanced Ed process, an additional system of review and accountability will be implemented by having the school leadership teams meet with the system leadership team regularly to provide documentation that the process developed to improve student achievement does yield the appropriate student success. This ongoing two-way communication will also strengthen the support between local schools and the system.
The system operates under governance and leadership that promote and support student performance and system effectiveness.

## Indicator 2.5

**Statement or Question**
Leadership engages stakeholders effectively in support of the system's purpose and direction.

**Response**
Leaders communicate effectively with appropriate and varied representatives from stakeholder groups, provide opportunities for stakeholders to shape decisions, solicit feedback and respond to stakeholders, work collaboratively on system and school improvement efforts, and provide and support meaningful leadership roles for stakeholders. System and school leaders' efforts result in measurable, active stakeholder participation, engagement in the system and its schools, a sense of community, and ownership.

**Evidence**
- Communication plan
- Minutes from meetings with stakeholders
- Copies of surveys or screen shots from online surveys
- Survey responses
- Involvement of stakeholders in a school improvement plan
- Examples of stakeholder input or feedback resulting in district action

**Rating** Level 3

## Indicator 2.6

**Statement or Question**
Leadership and staff supervision and evaluation processes result in improved professional practice in all areas of the system and improved student success.

**Response**
The criteria and processes of supervision and evaluation include references to system-wide professional practices and student success. Supervision and evaluation processes are implemented at minimal levels. The results of the supervision and evaluation processes are used sometimes to monitor and effectively adjust professional practice and improve student learning.

**Evidence**
- Examples of professional development offerings and plans tied specifically to the results from supervision and evaluation
- Governing body policy on supervision and evaluation
- Copies of surveys or screen shots from online surveys, Communication plan, Minutes from meetings with stakeholders
- Involvement of stakeholders in a school improvement plan, Involvement of stakeholders in district strategic plan, Examples of stakeholder input or feedback resulting in district action

**Rating** Level 2

---

**Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence the External Review team members may be interested in reviewing.**

**Strength**
The area of strength for the Lauderdale County School System is how the governing body establishes policies and support practices that ensure effective administration of the system and its schools. Our Board policies attempt to create an understanding through which the superintendent, his staff, and teachers carry out their duties.

The Board, upon written recommendations by the Superintendent, determines and establishes a written educational policy for the district and prescribes rules and regulations for the conduct and management of the schools. The Lauderdale County Board of Education may approve, amend, or revoke policies.

The Lauderdale County Board of Education's policies and practices clearly and directly support the system's purpose and direction and the effective operation of the system and its schools. The Board has the following in place to assure policies and practices ensure effective...
administration of the system: governing body policies, procedures, and practices are posted online as well as the district operation manuals, the student handbook, and the revisions policies of communications to stakeholders. Other evidence that can be obtained is professional development plans, school handbooks, and staff handbooks. Our governing body’s policies and practices clearly and directly support the system’s purpose and direction and the effective operation of our system and schools.

Weakness

Our teacher evaluation process is seen as a weakness. With the state’s new evaluation processes of evaluation, we feel that this weakness will be improved. These new processes include EDUCATEAlabama and LEADAlabama. EDUCATEAlabama is inclusive of all certified teaching positions, while LEADAlabama is inclusive of all certified administrators.
**Teaching and Assessing for Learning**

The system's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning across all grades and courses.

| 3.5       | The system operates as a collaborative learning organization through structures that support improved instruction and student learning at all levels. | All system staff participate in collaborative learning communities that meet both informally and formally. Collaboration often occurs across grade levels, content areas, and other system divisions. Staff members have been trained to implement a formal process that promotes discussion about student learning and the conditions that support student learning. Learning, using, and discussing the results of inquiry practices such as action research, the examination of student work, reflection, study teams, and peer coaching occur regularly among most system personnel. System personnel indicate that collaboration causes improvement results in instructional practice, system effectiveness, and student performance. | • Calendar/schedule of learning community meetings  
• Examples of improvements to content and instructional practice resulting from collaboration  
• Survey results  
• Common language, protocols and reporting tools  
• Professional development funding to promote professional learning communities  
• Agendas and minutes of collaborative learning committees  
• Examples of cross curricular or program projects, interdisciplinary instruction, and classroom action research projects | Level 3 |
### Indicator 3.6

**Statement or Question:** Teachers implement the system’s instructional process in support of student learning.

**Response:** All teachers throughout the system use an instructional process that informs students of learning expectations and standards of performance. Exemplars are often provided to guide and inform students. The process includes multiple measures, including formative assessments, to inform the ongoing modification of instruction and provide data for possible curriculum revision. The process provides students with specific and timely feedback about their learning.

**Evidence:**
- Survey results
- Examples of learning expectations and standards of performance
- Examples of assessments that prompted modification in instruction
- Samples of exemplars used to guide and inform student learning

**Rating:** Level 3

### Indicator 3.11

**Statement or Question**: All staff members participate in a continuous program of professional learning.

**Response**: All staff members participate in a continuous program of professional learning that is aligned with the system's purpose and direction. Professional development is based on assessment of needs of the system. The program builds capacity among all professional and support staff. The program is systematically evaluated for effectiveness in improving instruction, student learning, and the conditions that support learning.

**Evidence**:
- Crosswalk between professional learning and district purpose and direction
- Survey results
- Evaluation tools for professional learning
- District professional development plan involving the district and all schools
- Brief explanation of alignment between professional learning and identified needs

**Rating**: Level 3

### Indicator 3.12

**Statement or Question**: The system and its schools provide and coordinate learning support services to meet the unique learning needs of students.

**Response**: System and school personnel use data to identify unique learning needs of all students at all levels of proficiency as well as other learning needs (such as second languages). System and school personnel stay current on research related to unique characteristics of learning (such as learning styles, multiple intelligences, personality type indicators) and provide or coordinate related learning support services to all students.

**Evidence**:
- Data used to identify unique learning needs of students
- Survey results
- Training and professional learning related to research on unique characteristics of learning
- List of learning support services and student population served by such services
- Schedules, lesson plans, or example student learning plans showing the implementation of learning support services

**Rating**: Level 3

---

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence the External Review team members may be interested in reviewing.

1) What were the areas of strength you noted?

3.1 - Level 4 - The system's curriculum provides equitable and challenging learning experiences that ensure all students have sufficient opportunities to develop learning, thinking, and life skills that lead to success at the next level.

Lauderdale County implements a variety of research-based instructional programs that teach grade level specific skills while incorporating higher order thinking skills, active participation, and collaborative learning experiences. These programs and initiatives include: AMSTI (Alabama Math, Science, Technology Initiative), ASIM (Alabama Science in Motion), ARI (Alabama Reading Initiative), and Scott-Foresman Reading Street and Envision Math.
Lauderdale County schools provide the following to ensure that all students have sufficient opportunities to develop learning, thinking, and life skills for success:

- Individualized and tiered instruction
- Differentiated Instruction
- RtI (Response to Instruction)
- Counseling services
- Homeless services
- PACE for gifted students
- Special Education
- Title I/Title I Parent Involvement
- Speech Therapy
- English Learner program
- Credit Recovery
- Dual Enrollment
- Career Tech Student Organizations
- TRAC Recovery
- Jobs for Alabama Graduates
- Life Academy
- Make Sense Strategies
- QAR
- and various professional development opportunities for teachers.

Lauderdale County Schools’ teachers identify challenging and equitable learning opportunities for students in grades K-12 by identifying skills through their lesson plans which require course of study objectives, purpose, guided practice, independent practice, and assessments. These plans are consistent across the system, as well as the state with INow requirements found on STI.

Differentiated Instruction techniques are used to individualize learning activities for each student. Whole group and small group tiered instruction strategies are used to support student learning.

3.4 - Level 3 - System and school leaders monitor and support the improvement of instructional practices of teachers to ensure student success.

Research-based programs are used for curriculum implementation and include curriculum maps and pacing guides that are online to ensure consistency of lessons plans and implementation of content across the system.

EDUCATEAlabama evaluation procedures use a pacing schedule to ensure every teacher is monitored for improving instructional practices and ensuring that instruction supports student learning.

County wide CIP walkthroughs are implemented three times a year by central office personnel and individual school walkthroughs are conducted by principals and assistant principals on a regular basis to monitor improvement goals/actions.

Teachers in grades K-6 document assessment data on spreadsheets that are turned in to principals and reading coaches monthly. K-6 data meetings are conducted three times a year. Data from DIBELS and the core reading program are analyzed and used in planning instructional strategies for Tier 1 instruction with whole group and small group and for intervention in Tiers 2 and 3 for supporting student learning. Data meetings are followed up with grade level meetings where professional development is provided as needed and plans are made from ongoing data analysis and student learning.

ARI Reading Coaches adhere to a schedule that supports coaching based on the needs of assessment data.

Departmental meetings are held in grades 7-12 to analyze annual standardized test scores including the AHSGE. Strengths and weaknesses are identified and instructional goals are established for increasing student learning in the specific skill areas identified.

PST meetings are held in grades K-12 to discuss students who continue to struggle and plans are developed to meet the needs of those individual students.

Professional development is provided by school and system personnel to target identified weaknesses identified through data analysis.

2) What were areas in need in improvement?

3.7 - Level 2 - Mentoring, coaching, and induction programs support instructional improvement consistent with the system’s values and beliefs about teaching and learning.

In the past, mentoring programs were in place county-wide. However, due to state funding cuts these programs have ceased temporarily. New hire orientation has been cancelled due to low number of new hires.

3) What actions are you implementing to sustain the areas of strength?

Pupil Support Teams, Data Meetings, Department/Grade Level Meetings, Implement the Infocus program to track At-risk students, Survey all students using a student residency questionnaire to ensure adequate data, Continue to implement the following programs and/or strategies:

Life Academy, Credit Recovery, Dual Enrollment, Early Scholars, outside tutoring, Differentiated Instruction, Make Sense Strategies, and
professional development opportunities

4) What plans are you making to improve the area of need?
Assign home room teachers for high school beginning in 9th grade, Implement an Ambassador Program to assist new students, Assign County Wide Department/Grade Level Head or Lead teacher to assist new teachers, Develop new personnel manuals with information related to new hires including mentoring, coaching and inductions practices, and develop school specific handbooks.
Resources and Support Systems

The system has resources and provides services in all schools that support its purpose and direction to ensure success for all students.

Overall Rating: 3.0

## Accreditation Report
### Lauderdale County Board of Education

### Indicator 4.7

**Statement or Question:** The system provides, coordinates, and evaluates the effectiveness of support systems to meet the physical, social, and emotional needs of the student population being served.

**Response:** The system has designed and implemented a process to determine the physical, social, and emotional needs of all students and then selects or designs and implements programs to meet the needs of these students. Measures of program effectiveness are in place, and system and school personnel use the data from these measures to regularly evaluate all programs. Improvement plans related to these programs are designed and implemented to more effectively meet the needs of all students.

**Evidence:**
- Schedule of family services, e.g., parent classes, survival skills
- Social classes and services, e.g., bullying, character education
- Survey results
- Student assessment system for identifying student needs
- Agreements with school community agencies for student-family support
- List of support services available to students

**Rating:** Level 3

### Indicator 4.8

**Statement or Question:** The system provides, coordinates, and evaluates the effectiveness of services that support the counseling, assessment, referral, educational, and career planning needs of all students.

**Response:** The system has designed and implemented a process to determine the counseling, assessment, referral, educational, and career planning needs of all students and then selects or designs and implements programs to meet the needs of these students. Measures of program effectiveness are in place, and system and school personnel use the data from these measures to regularly evaluate all programs. Improvement plans related to these programs are designed and implemented to more effectively meet the needs of all students.

**Evidence:**
- Description of referral process
- List of services available related to counseling, assessment, referral, educational, and career planning
- Survey results
- Budget for counseling, assessment, referral, educational and career planning
- Description of IEP process

**Rating:** Level 3

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence the External Review team members may be interested in reviewing.

**4.1** The system engages in a systematic process to recruit, employ, and retain a sufficient number of qualified professional and support staff to fulfill their roles and responsibilities and support the purpose and direction of the system, individual schools, and educational programs.

**Strength** - Our system has a commitment to hire only personnel meeting the Highly Qualified status. The policies/procedures for hiring and retaining qualified staff are in place and followed at each school throughout the system.

**Weakness** - Over the last several years, the system has experienced proration due to state funding cuts. In some cases, this has caused overcrowded classes. We also need to increase personnel for gifted/counselors/career tech/resource officer/fine arts and to provide teachers to address our current low number of electives. The lack of recruitment/hiring from outside the system for certain positions sometimes keeps the system from getting the best personnel available.

**4.2** Instructional time, material resources, and fiscal resources are sufficient to support the purpose and direction of the system, individual...
Accreditation Report
Lauderdale County Board of Education

Schools, educational programs, and system operations.
Strength - All schools have CIP teams made up of school and community people who analyze various data and create CIP plans with goals, strategies, and action steps based on areas of need. School and District Administrators conduct walkthroughs and use the CIP plans to monitor the school's implementation of the strategies and action steps addressed in the plan. Data meetings are conducted on a regular basis to analyze the effectiveness of the instruction and CIP implementation.
Weakness - Many textbooks are out of date and some of those textbooks will not be replaced in the near future due to the state's timeline. A great deal of the classroom and system technology (mainly computers) available is outdated and will not always run the newer programs the available in the system.

4.3 The system maintains facilities, services, and equipment to provide a safe, clean, and healthy environment for all students and staff.
Strength - Schools conduct the fire/tornado drills, bus evacuations, and lockdown drills on a regular schedule. Our system and each school have a crisis intervention plan and our auto call system can be used to inform all parents at once of any event. The fire marshal monitors campuses annually. Custodians inspect campus and playgrounds for infestation of insects. Janitorial supplies are stored as required. The maintenance supervisor conducts asbestos training and monitors the campus for mold. Balanced lunch meals, regular health department checks, alcohol based and sanitizer soaps are in all cafeterias and restrooms, school nurses on each campus and two system nurse supervisors all contribute to healthy environments.
Weakness - Our system needs at least one more SRO officer to serve our large student population. Custodial staff is not sufficient to take care of all of the facilities, grounds, and equipment. Campus layouts are spread out. Communication with stakeholders is often lacking.

4.4 The system demonstrates strategic resource management that includes long-range planning in support of the purpose and direction of the system.
Strength - Our system has a capital plan that includes long-range planning. Our schools have regular EPA inspections, health department checks of all lunchroom, and regular bus maintenance. Maintenance requests are sent in to the maintenance supervisor to address. Our system utilizes available resources for buying buses to keep a safe fleet.
Weakness - Our system has several old facilities and needs an updated facility assessment. A lack of maintenance in certain schools/facilities is a weakness.

4.5 The system provides, coordinates, and evaluates the effectiveness of information resources and related personnel to support educational programs throughout the system.
Strength - Our system has a full time Instructional Technology Specialist and a half-time Technology Integration Specialist who are very effective in coordinating and evaluating information resources and training personnel in the use of these resources. Our school librarians work are effective in providing and evaluating resources. Technology paraprofessionals and school technology managers support educational programs and are trained on resources to share with the teachers. There are webmasters in each school.
Weakness - The State has not provided funding for technology and libraries in several years which has led to a lack of technology and library resources. We do not have a systematic evaluation of the effectiveness of all educational programs.

4.6 The system provides a technology infrastructure and equipment to support the system's teaching, learning, and operational needs.
Strength - The system has wireless capabilities throughout each school. INow provides a platform for management of grades, courses, school to parent communication, and assessments. Technology surveys are conducted annually. The system and all schools have a technology plan.
Weakness - The technology infrastructure, including servers, is not adequate to handle all of the schools instructional technology available. There are only four IT personnel for 11 schools and over 8500 students. Much of the equipment is outdated and will not run newer programs, and some servers need to be replaced.
4.7 The system provides, coordinates, and evaluates the effectiveness of support systems to meet the physical, social, and emotional needs of the student population being served.

Strength - Our system has counselors, nurses, and PE teachers in place in all schools in numbers according to state regulations. Our system conducts vision/hearing screenings, physicals, and drug tests (athletes and bus drivers). We provide OT, PT, and homebound services to students with identified needs and collaborate with outside counselors/agencies to provide other services. Our system has an early warning program for attendance issues and LIFE Academy for at-risk students who need a non-traditional academic program. Students may qualify for Free/Reduced lunch or 504.

Weakness - We have no gifted program for high school students and a limited program for elementary. We have only one social worker and no homeless liaison. There is no system of evaluations of the effectiveness of all educational programs.

4.8 The system provides, coordinates, and evaluates the effectiveness of services that support the counseling, assessment, referral, educational, and career planning needs of all students.

Strength - Our system has counselor(s) at each school and a PST to monitor students with academic and behavioral needs and make Special Education/504 referrals as needed. Counselors work with 8th graders in developing a career plan.

Weakness - Counselors have too many duties other than counseling to provide the level of counseling needed, and career planning is limited to 8th grade in many schools. Assessing is ongoing but follow-up on the assessment is a weakness. We do not provide career fairs in adequate number for the middle school and high school population.
The system implements a comprehensive assessment system that generates a range of data about student learning and system effectiveness and uses the results to guide continuous improvement.

### Indicator 5.4
**Statement or Question:** The school system engages in a continuous process to determine verifiable improvement in student learning, including readiness for and success at the next level.

**Response:** Policies and procedures describe a process for analyzing data that determine verifiable improvement in student learning including readiness for and success at the next level. Results indicate improvement, and system and school personnel systematically use these results to design, implement, and evaluate the results of continuous improvement action plans related to student learning, including readiness for and success at the next level.

**Evidence:**
- Examples of use of results to evaluate continuous improvement action plans
- Agendas, minutes of meetings related to analysis of data
- Policies and procedures specific to data use and training
- Student surveys
- Evidence of student readiness for the next level
- Evidence of student success at the next level
- Evidence of student growth
- Description of process for analyzing data to determine verifiable improvement in student learning

**Rating:** Level 3

### Indicator 5.5
**Statement or Question:** System and school leaders monitor and communicate comprehensive information about student learning, school performance, and the achievement of system and school improvement goals to stakeholders.

**Response:** System and school leaders monitor comprehensive information about student learning, system and school effectiveness, and the achievement of system and school improvement goals. Leaders regularly communicate results using multiple delivery methods and to all stakeholder groups.

**Evidence:**
- District quality control procedures for monitoring district effectiveness
- Minutes of meetings regarding achievement of student learning goals
- Survey results
- Sample communications to stakeholders regarding student learning, conditions that support learning, and achievement of school improvement goals
- Examples of district marketing tools and websites that cite student achievement results or that make promises regarding student achievement
- District quality control procedures for monitoring information about student learning, systems that support learning, and the achievement of school improvement goals

**Rating:** Level 3

---

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite
sources of evidence the External Review team members may be interested in reviewing.

Strengths:
Our system and school personnel maintain and use a comprehensive assessment system that produces data from multiple assessment measures. In order to sustain this area: We will maintain assessment strategies that are already in place and be continuously aware of relevant assessment trends.

Our system and school leaders monitor comprehensive information about student learning, system and school effectiveness, and the achievement of system and school improvement. In order to sustain this area: We, as a district, will continue current practices and monitor with evidence of data meetings, and walkthroughs

Weakness
There is a lack of formal progress monitoring procedures in Math. Efforts to improve: In elementary, progress monitoring will be built in the series. In high school, discussions center around curriculum based measurements and the State purchased Global Scholars Achievement series.
Lauderdale County School System Improvement Plan

Goal 1: All students in the Lauderdale County School System will become proficient readers.

Measurable Objective 1:
100% of Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth and Eleventh grade students will demonstrate a proficiency on the common core ELA standards in English Language Arts by 05/31/2018 as measured by State assessments.

Strategy 1:
Strategic Teaching - Teachers will be trained in strategic teaching methods. The district reading specialist will prepare and deliver professional development to each school and the reading coach/instructional specialists. Each school will work with an instructional coach who will deliver professional development to teachers on a regular basis.

Research Cited: Research conducted by the National Reading Panel, Reading First, and the Alabama Reading Initiative all support the strategic teaching method as highly effective.

<table>

<td>12/20/2013</td>
<td>$0</td>
<td>Title II Part A</td>
<td>Curriculum coordinators, district reading specialist, reading coaches, instructional specialists</td>
</tr>
</tbody>
</table>

Schools: All Schools

Strategy 2:
Universal Screener - All students will be administered a universal screener to identify strengths and weaknesses.

Research Cited: The RtI Action Network identifies screening all students as the first step in the RtI prevention model.

<table>

All students will participate in a universal screener through the performance series of Global Scholar.

Schools: All Schools

| Academic Support Program | 09/30/2013 | 05/31/2018 | $0 | State Funds | Teachers, District Technology Specialists, Technology Assistants |

**Strategy 3:**
Differentiated Instruction - Teachers will deliver differentiated instruction in all content areas.

Research Cited: The Response to Intervention model identifies differentiated instruction as a component of effective tier I classroom instruction.

<table>
<thead>
<tr>

**Goal 2: All students in the Lauderdale County School System will become proficient in mathematical practices.**

**Measurable Objective 1:**
100% of Eleventh and Twelfth grade students will demonstrate a proficiency in mathematical practices in Mathematics by 05/31/2018 as measured by the numbers of students achieving benchmark scores on the math portion of the ACT and WorkKeys.

**Strategy 1:**
Tiered Instruction - Students will be instructed using the tiers of instruction in all math classes.

Research Cited: Response to Intervention (Instruction) identifies effective tier I, II, and III teaching strategies to increase student achievement. This research can be found on the Rti Action Network.

<table>

The institution has reported all substantive changes in the institution that affect the scope and/or have an impact on the institution's ability to meet the AdvancED standards and policies. Such changes include, but are not limited to:

- Restructuring (merging, opening, or closing) of the institution or institution(s) within its jurisdiction
- Mission and purpose of the institution
- Governance structure of the institution, including changing to a charter school/school system, being the subject of a state takeover, or a change in ownership
- Grade levels served by the institution
- Staffing, including administrative and other non-teaching professionals personnel
- Available facilities, including upkeep and maintenance
- Level of funding
- School day or school year
- Establishment of an additional location geographically apart from the main campus
- Student population that causes program or staffing modification(s)
- Available programs, including fine arts, practical arts and student activities

<table>
<thead>
<tr>

<tbody>
<tr>
<td>One of the most substantial changes we have made as a system is the closing of Cloverdale Elementary School at the end of the 2011-2012 school year. The 90 students previously served at Cloverdale have now been transferred to surrounding schools. At the conclusion of the 10-11 school year, the Anderson and Cloverdale Schools' grade spans were reconfigured from K-9 to K-6. The Lauderdale County School System will experience a change in the superintendent position in November due to it being an elected position. The present superintendent is retiring and is not seeking re-election.</td>
