Executive Summary
Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.
Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

The Lexington School Mission Statement reads, "Our school and community are committed to continuous improvement and enabling successful lifelong learners in a safe environment."

The process for establishing a vision for our school began several years ago with the formation of an internal committee of faculty members with an objective to develop a vision statement as part of a plan for school improvement. The committee then conducted a self-assessment of who we were, why we were here, and what we wanted to accomplish. Since the faculty is only one part of a successful learning community, the committee organized stakeholders with representation from students, community leaders, business owners and parents. Lexington is a small rural community in Northwest Alabama. In 2010, the median income was slightly over $46,000, which was above the state average. Its racial makeup is 98% White, 1% Hispanic, and 1% two or more races. Our current enrollment is 891 students (99% White, and 1% American Indian). Our faculty is made up of 98% White and 2% Hispanic.
School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

The administration, counselors, and teachers at Lexington School evaluate academic effectiveness by reviewing annual, standardized test scores for each grade level. First, each grade level is reviewed for any changes in demographic data. Changes in demographic data are used as indicators for a changing school profile. Annual goals for each grade level are then developed using the current profile and performance and high expectations for achievement. Continuous school improvement is important to Lexington School and the community. The annual goals for each grade level are used as the vehicle for moving our school toward realizing our vision for the future.

A variety of programs are used to prepare students for life-long learning. Programs such as the Alabama Reading Initiative (ARI), Alabama Math, Science, and Technology Initiative (AMSTI), and Alabama Science in Motion (ASIM) teach not only basic skills but they also stimulate inquiry and provide motivation for students to learn. Lexington School also provides opportunities to take Advanced Placement (AP) courses, online and distance learning Alabama courses through ACCESS computer lab, and dual enrollment college courses. These nontraditional opportunities provide students with skills that will support the life-long learning process. Teachers at Lexington School use the Alabama Course of Study, test scores, and research-based strategies to determine appropriate curriculum and learning strategies and assessments. These assessments are aligned and articulated across grade levels to meet national as well as state standards.

Teachers follow curriculum pacing guides in all subject areas. In addition, data from ARMT, and AHSGE are used to help the faculty determine the strengths and weaknesses of classroom instruction. Teachers also use additional data from DIBELS, STAR, and the research based Scott Foresman Reading Program (benchmark tests) to make adjustments to reading instruction and intervention. All texts are aligned with the Alabama Course of Study after adoption.

In order to ensure student learning, instructional strategies, such as data meetings, departmental meetings, ARI grade-level meetings, and CIP (Continuous Improvement Plan) meetings are utilized throughout the school year. Our school also strives to protect instructional time and keep interruptions to a minimum. All elementary grade levels adhere to a daily 90 minute uninterrupted reading block of time.

The administration encourages stakeholders, including staff to provide leadership and contribute in the decision making process in a multitude of ways, when and if the need arises.

- Fall Festival
- Fund raisers
- Teacher's Resource
- Booster Clubs
Notable Achievements and Areas of Improvement

Describe the school’s notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

We are most proud of our Dual Credit and ACCESS classes that we offer. We have also been recognized three times by the U.S. News and World Report as one of the best high schools in America. In addition to these things, our school has met the AYP goals each year that are established by the No Child Left Behind Act.

The main challenge that Lexington School has faced during the past three years is the reduction in funding and staff. We have used creative scheduling to attempt to alleviate some of the staffing shortfalls and our faculty has responded positively to these changes. Our school system transitioned to a seven period school day last year, and this too has helped address the reduction in staff. Our faculty and staff have done a tremendous job in addressing the reduction in classroom funding as well. They have done this by being creative themselves in getting the most production from the limited resources that are available at this time. We are confident that our faculty and staff will continue to meet the challenges of the future with the same determination that they have exhibited during these last three years of reduced funding.
Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

We are proud to be a community school. Our community supports our academic programs and our athletic programs. Many of the parents of our students are graduates of Lexington School and want our proud tradition to continue.
Self Assessment
Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.
Standard 1: Purpose and Direction

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 3.0

| 1.1       | The school engages in a systematic, inclusive, and comprehensive process to review, revise, and communicate a school purpose for student success. | The school's process for review, revision, and communication of the purpose statement is documented. The process is formalized and implemented on a regular schedule. The process includes participation by representatives from all stakeholder groups. The purpose statement focuses on student success. | •Purpose statements - past and present  
•Documentation or description of the process for creating the school's purpose including the role of stakeholders  
•Minutes from meetings related to development of the school's purpose  
•Survey results  
•Examples of communications to stakeholders about the school's purpose (i.e. website, newsletters, annual report, student handbook)  
•Communication plan to stakeholders regarding the school's purpose | Level 3 |
| 1.2       | The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills. | Commitment to shared values and beliefs about teaching and learning is evident in documentation and decision making. This commitment is regularly reflected in communication among leaders and staff. Challenging educational programs and equitable learning experiences are implemented so that all students achieve learning, thinking, and life skills necessary for success. Evidence indicates a commitment to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills. School leadership and staff share high expectations for professional practice. | •Survey results  
•Agendas and/or minutes that reference a commitment to the components of the school's statement of purpose

---

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing.

Cite sources of evidence External Review team members may be interested in reviewing.

1.1 We assigned ourselves a rating of three. Our school stakeholders have reviewed and discussed revisions of our school’s formal purpose statement. We have communicated this purpose statement, which clearly focuses on student success, to students, parents, and other stakeholders within the community. We will sustain this area of strength by looking for ways to improve and document two-way communication, especially with parents.

1.2 We assigned ourselves a rating of three. The administration, faculty, and staff are dedicated to doing our best for our students, and we have high expectations for each other and for them. While we challenge them to use higher thinking skills and plan activities that address all learning styles, we realize that we can improve in applying these toward life skills that our students will need after they leave us.

1.3 We assigned ourselves a rating of three. While not all stakeholders are currently involved in documentation and data analysis for the improvement of achievement and instruction that are aligned with the school purpose statement, our administration does implement a documented, systematic improvement plan with measurable performance targets, strategies, and timelines for the achievement of goals.
### Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

•Copies of surveys or screen shots from online surveys  
•Survey responses  
•Involvement of stakeholders in a school improvement plan | Level 3 |
2.6 Leadership and staff supervision and evaluation processes result in improved professional practice and student success.

The focus of the criteria and processes of supervision and evaluation is improving professional practice and improving student success. Supervision and evaluation processes are regularly implemented. The results of the supervision and evaluation processes are used to monitor and effectively adjust professional practice and improve student learning.

**Evidence**
- Examples of professional development offerings and plans tied specifically to the results from supervision and evaluation
- Governing body policy on supervision and evaluation
- Representative supervision and evaluation reports
- Supervision and evaluation documents with criteria for improving professional practice and student success noted
- Job specific criteria

Level 3

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

The Standard 2 Committee of Lexington School met on March 9, 2012 to discuss the strengths and weaknesses of the leadership and governance of our school and district. We affirmed the decisions of our district committee and assessed the weaknesses of our school in the following narrative.

**Strength**

The area of strength for the Lauderdale County School System is how the governing body establishes policies and support practices that ensure effective administration of the system and its schools. Our Board policies attempt to create an understanding through which the superintendent, his staff, and teachers carry out their duties.

The Board, upon written recommendations by the Superintendent, determines and establishes a written educational policy for the district and prescribes rules and regulations for the conduct and management of the schools. The Lauderdale County Board of Education may approve, amend, or revoke policies.

The Lauderdale County Board of Education's policies and practices clearly and directly support the system's purpose and direction and the effective operation of the system and its schools. The Board has the following in place to assure policies and practices ensure effective administration of the system: governing body policies, procedures, and practices are posted online as well as the district operation manuals, the student handbook, and the revisions policies of communications to stakeholders. Other evidence that can be obtained is professional development plans, school handbooks, and staff handbooks. Our governing body’s policies and practices clearly and directly support the system's purpose and direction and the effective operation of our system and schools.

**Weakness**

An area of weakness for the Lauderdale County School System is how the leadership engages stakeholders effectively in support of the system's purpose and direction. The Lauderdale County System is limited on communicating effectively with stakeholder groups and providing opportunities for them to help shape decisions or solicit feedback from the stakeholders. Leaders often do not solicit feedback to the stakeholders because of the lack of accessibility of communication avenues.

Possible plan of action for Lexington School includes changes to our school's website by updating and maintaining staff web pages and...
Accreditation Report
Lexington School

continuing to post daily announcements. Parental communication will be improved with the opening of the INOW parent portal and Accelerated Reader Renaissance Place. Areas of improvement have been targeted and future plans will involve more interaction between stakeholders, the governing body and the school.
# Standard 3: Teaching and Assessing for Learning

The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.

Overall Rating: 3.08

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

1) What were the areas of strength you noted?

3.1 - Level 4 - The system's curriculum provides equitable and challenging learning experiences that ensure all students have sufficient opportunities to develop learning, thinking, and life skills that lead to success at the next level.

   o Lexington School teachers identify challenging and equitable learning opportunities for students in grades K-12 by identifying skills through their lesson plans which require course of study objectives, purpose, guided practice, independent practice, etc... These plans are consistent across the district, as well as the state with INOW requirements. Lauderdale County has a K-6 pacing guide for the Scott-Foresman Reading program which allows county wide consistency of skills being taught. For our mathematics program we use data from Envision and AMSTI. Differentiated Instruction techniques are used to individualize learning activities for each student. Whole group and small group tiered instruction strategies are used to support student learning.

3.4 - Level 4 - System and school leaders monitor and support the improvement of instructional practices of teachers to ensure student success.

   o County wide walkthroughs are implemented three times a year by central office personnel. School walkthroughs are conducted by our principal and assistant principals on a regular basis. Our reading coach is constantly looking at data for improving our reading instruction. K-6 data/grade level meetings are conducted three times a year. EDUCATE Alabama evaluation procedures use a pacing schedule for every teacher. Curriculum maps and pacing guides are online to ensure consistent implementation of content across the district.

2) What were areas in need in improvement?

3.7 - Level 2 - Mentoring, coaching, and induction programs support instructional improvement consistent with the system's values and beliefs about teaching and learning.

   In the past mentoring programs were in place county wide, due to lack of funding, these programs have been cut. New hire orientation has been cancelled due to lack of need

3) What actions are you implementing to sustain the areas of strength?

   o PST Teams  
   o Data Meetings  
   o Grade Level Meetings

- County Wide Department/Grade Level Head or Lead teacher to assist new teachers
- New personnel manuals with information related to new hires including mentoring, coaching and inductions practices need to be developed
- School specific handbooks could be developed
- Possible Middle School Academy during discovery period for 2-4 weeks
Standard 4: Resources and Support Systems

The school has resources and provides services that support its purpose and direction to ensure success for all students.

Overall Rating: 3.0

### Indicator 4.6

**Statement or Question**: The school provides support services to meet the physical, social, and emotional needs of the student population being served.

**Response**: School personnel implement a process to determine the physical, social, and emotional needs of each student in the school. School personnel provide or coordinate programs to meet the needs of students as necessary. Measures of program effectiveness are in place, and school personnel use the data from these measures to evaluate all programs. Improvement plans related to these programs are designed and implemented when needed to more effectively meet the needs of students.

**Evidence**:
- Schedule of family services, e.g., parent classes, survival skills
- Social classes and services, e.g., bullying, character education
- Survey results
- Student assessment system for identifying student needs
- Agreements with school community agencies for student-family support
- List of support services available to students

**Rating**: Level 3

### Indicator 4.7

**Statement or Question**: The school provides services that support the counseling, assessment, referral, educational, and career planning needs of all students.

**Response**: School personnel implement a process to determine the counseling, assessment, referral, educational, and career planning needs of all students. School personnel provide or coordinate programs necessary to meet the needs of students whenever possible. Measures of program effectiveness are in place, and school personnel use the data from these measures to evaluate all programs. Improvement plans related to these programs are designed and implemented when needed to more effectively meet the needs of students.

**Evidence**:
- Description of referral process
- List of services available related to counseling, assessment, referral, educational, and career planning
- Survey results
- Budget for counseling, assessment, referral, educational and career planning
- Description of IEP process

**Rating**: Level 3

---

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing.

Cite sources of evidence External Review team members may be interested in reviewing.

Lexington School, in conjunction with the Lauderdale County Superintendent's office, has a strong mandate that requires the recruitment and hiring of only highly qualified personnel. The policies and procedures for hiring and maintaining such a qualified staff include the posting of all position openings, the requirement of a letter of interest, application, resume, proof of educational background and fingerprint documentation before anyone is interviewed or hired. The principals and superintendent work together to select the persons most qualified and appropriate for each position that becomes available. Insuring the best teachers for each situation is of utmost importance. Unfortunately, due to continuing budget reductions and proration teaching units have been lost which is leading to overcrowding in some classrooms. Also, system-wide, we are understaffed in the areas of gifted education, resource officers, and fine arts education. Like most schools Lexington School is able to offer fewer electives than would be optimal due to staff reduction.

The administration and staff of Lexington School are dedicated to their students and are careful to protect and use wisely each moment of class time available for instruction, evaluation, and learning. Students are discouraged from being out of class for any reason and a video monitoring system helps the administration maintain a close watch on traffic in the halls during class. Policies and plans are in place to insure...
that self-monitoring by teachers result in the continued best use of class time. These policies include CIP plans, walkthroughs by local and County Office staff, data meetings and monthly grade level/subject meetings. As with most schools, Lexington's teachers must work hard to adequately supplement textbooks that are old and outdated. Due to a lack of funding they are also called upon to make the most of antiquated technology and work with limited supplies. Our staff is to be commended for the job they do with the resources they are given.

Student and faculty safety is a priority at Lexington School. The safety plan includes monthly fire/tornado drills, regular lockdown drills, a clearly written safety plan, county wide automatic phone call system, emergency bus evacuation drills, and visits from the state fire marshal. In addition to emergency plans, our cafeteria staff is constantly training and learning in order to provide our children with balanced meals at lunch and breakfast. Monitoring of the cafeteria by the health department and the county child nutrition program (CNP) supervisor ensure compliance with state and federal CNP guidelines. Lexington has one school nurse to oversee the needs and health of the entire school population. The staff as a whole receives annual training in the handling of bio-hazardous materials. The Lexington School campus is so large and spread out over such a large physical area that additional custodial staff is needed.

Every effort is made at Lexington to make long-range capital plans that make the best use of the limited fiscal resources available. Both at the county and school level, capital plans are in place that clearly defines the intended use of present and future funds. These funding plans include plans for not only the building of any future facilities, but also the maintenance of existing facilities. The current system of submitting work orders and maintenance requests to the county maintenance supervisor assures that necessary work is completed in a timely manner. Every effort is made to use every dollar allotted in the wisest manner. Large matters of costly maintenance are often postponed due to a lack of funds. Many of the existing facilities are older and require frequent work and ideally would be replaced. Also, some of the facilities, such as the band room, are too small to adequately serve the population of students for whom they were intended.

The Lauderdale County System currently employs two technology instructors, Cheri McCain and Carol Pace. These ladies, in coordination with Lexington's librarian and staff provide the training of teachers in all areas of the use of technology resources. As a result, the students at Lexington receive the best technological training possible. Faculty and staff are limited in the effectiveness of technology training by the lack of monies set aside for the purchase of equipment. The library is also suffering from severe budget cuts and lacks the funds to replace and enhance its existing technology and inventory.

The recent installation of INOW has updated our electronic record keeping capabilities. Currently, wireless internet access is being installed that will allow Lexington to have more consistent and less problematic Internet service. Each year, technology surveys are completed by faculty and staff and are used to create a technology plan. This plan includes a time line for the purchasing and replacement of technology as the funds become available. Unfortunately, with a team of only four technicians county wide to service the antiquated computers that students and especially teachers have for their use the need for repair often exceeds the availability of repair personnel.

Lexington School and Lauderdale County as a whole are committed to meeting the physical, social, and emotional needs of our students. To that end, Lexington employs counselors for both elementary and high school students, a school nurse, and Physical Education teachers. Also, on an as needed basis, students are provided services by occupational and physical therapists, grief counselors, mental health educators, and homebound instructors. Free and reduced breakfasts and lunches are provided for all students who complete the required forms and meet program criteria. A fairly new addition to Lexington's academic arsenal is Life Academy. This program helps students who might other wise fail or drop out to complete the credits needed for graduation. A limited, elementary only Gifted Education program is offered to those who qualify. The lack of a gifted program past sixth grade is a problem that must be addressed by the county office. With only one social worker to serve the population of the entire county, there is an obvious need for additional staff in this area. The county is also in need of a liaison to serve homeless students and their families.
Having two guidance counselors helps Lexington in its efforts to coordinate the support of its student's academic endeavors. This includes personal counseling, assessment and referral to special education programs, and educational and career planning. The sheer volume of need generated by a school of this size often inundates the existing counselors and requires them to prioritize their time and efforts. Due to a need for more personnel in this area, high school students especially, do not always have access to the career planning, college planning, and scholarship information that would ease their entrance into college life. Also, a problem is the lack of varied and available career fairs in our region.

In summary, Lexington School, in cooperation with the Lauderdale County Board of Education and the Superintendent's office, works diligently to develop and implement plans that provide for the most effective use of all resources, both physical and financial, to provide an educational program that best serves our student population. While not perfect and often limited by lack of funds, Lexington School continues to educate and train students to be productive adults and contributing members of society. This is the very definition of success to an educator.
## Standard 5: Using Results for Continuous Improvement

The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement.

Overall Rating: 3.0

<table>

| 5.1       | The school establishes and maintains a clearly defined and comprehensive student assessment system. | School personnel maintain and use an assessment system that produces data from multiple assessment measures, including locally developed and standardized assessments about student learning and school performance. The system ensures consistent measurement across classrooms and courses. Most assessments, especially those related to student learning, are proven reliable and bias free. The system is regularly evaluated for reliability and effectiveness in improving instruction, student learning, and the conditions that support learning. |  - Evidence that assessments are reliable and bias free  
  - Brief description of student assessment system including range of data produced from standardized and local assessments on student learning and school performance  
  - Survey results  
  - Documentation or description of evaluation tools/protocols | Level 3 |
| 5.2       | Professional and support staff continuously collect, analyze, and apply learning from a range of data sources, including comparison and trend data about student learning, instruction, program evaluation, and organizational conditions. | Systematic processes and procedures for collecting, analyzing, and applying learning from multiple data sources are used consistently by professional and support staff. Data sources include comparison and trend data that provide a complete picture of student learning, instruction, the effectiveness of programs, and the conditions that support learning. School personnel use data to design, implement, and evaluate continuous improvement plans to improve student learning, instruction, the effectiveness of programs, and organizational conditions. |  - Examples of use of data to design, implement, and evaluate continuous improvement plans and apply learning  
  - Survey results  
  - List of data sources related to student learning, instruction, program effectiveness, and conditions that support learning  
  - Written protocols and procedures for data collection and analysis | Level 3 |
### Indicator 5.3

**Statement or Question:** Professional and support staff are trained in the evaluation, interpretation, and use of data.

**Response:** All professional and support staff members are assessed and trained in a rigorous professional development program related to the evaluation, interpretation, and use of data.

**Evidence:**
- Professional learning schedule specific to the use of data
- Training materials specific to the evaluation, interpretation, and use of data
- Survey results
- Policies specific to data training
- Documentation of attendance and training related to data use

**Rating:** Level 3

### Indicator 5.4

**Statement or Question:** The school engages in a continuous process to determine verifiable improvement in student learning, including readiness for and success at the next level.

**Response:** Policies and procedures describe a process for analyzing data that determine verifiable improvement in student learning, including readiness for and success at the next level. Results indicate improvement, and school personnel consistently use these results to design, implement, and evaluate the results of continuous improvement action plans related to student learning, including readiness for and success at the next level.

**Evidence:**
- Examples of use of results to evaluate continuous improvement action plans
- Agendas, minutes of meetings related to analysis of data
- Student surveys
- Evidence of student readiness for the next level
- Evidence of student success at the next level
- Evidence of student growth
- Description of process for analyzing data to determine verifiable improvement in student learning

**Rating:** Level 3
### Indicator 5.5

**Statement or Question**
Leadership monitors and communicates comprehensive information about student learning, conditions that support student learning, and the achievement of school improvement goals to stakeholders.

**Response**
Leaders monitor comprehensive information about student learning, conditions that support student learning, and the achievement of school improvement goals. Leaders regularly communicate results using multiple delivery methods to all stakeholder groups.

**Evidence**
- School quality control procedures for monitoring information about student learning, conditions that support learning, and the achievement of school improvement goals
- Executive summaries of student learning reports to stakeholder groups
- Survey results
- Sample communications to stakeholders regarding student learning, conditions that support learning, and achievement of school improvement goals
- Communication plan regarding student learning, conditions that support learning, and achievement of school improvement goals to stakeholders
- Minutes of board meetings regarding achievement of student learning goals

**Rating** Level 3

---

**Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing.**

**Cite sources of evidence** External Review team members may be interested in reviewing.

**Standard 5.1**

The committee ranked our school at level 3.

**Strengths:** K - 12 students are thoroughly assessed in each core subject area with a variety of testing measures. How do we sustain this strength? Maintain current testing strategies. What areas of this standard need improvement? Not ALL data is used for effective evaluation of student learning. How do we improve this area of weakness? Make all teachers aware of raw testing data and allow all them access to data, not just data regarding their subject area. Implementation of county-wide focus meetings centered on disaggregation of raw data related to student learning. School-level collaborative meetings conducted at regular intervals to analyze student performance data to adjust classroom instruction.

The committee ranked our 5.2 performance as a Level 3.

**Standard 5 Narrative**

**Strength:**
System and school personnel maintain and use a comprehensive assessment system that produces data from multiple assessment measures.

To sustain this area: Maintain assessment strategies that are already in place and be continuously aware of relevant assessment trends.
Evidence:

System and school leaders monitor comprehensive information about student learning, system and school effectiveness, and the achievement of system and school improvement.

To sustain this area: Continuation of current practices

Evidence: data meeting, walkthroughs,

Weakness
Lack of formal progress monitoring procedures in math.

Efforts to improve: In elementary, progress monitoring will be built in the series. In high school, discussions center around curriculum based measurements.

Standard 5.3

We reached a consensus of a 3 rating on Indicator 5.3 because evidence demonstrated that the professional and support staff in the Lauderdale County School System are well trained in relation to evaluating, interpreting, and using data. Our evidence includes such things as district wide data reports, professional learning schedules, and evidence of trainings and regular meetings related to data. This documentation shows that we have an ongoing professional development program in which the staff is regularly and rigorously trained in this area.

Standard 5.4

Our committee ranked our school system at level 3 on indicator 5.4. We came to this conclusion because our system has many policies in place to track elementary reading, middle school achievement, and high school readiness. The improvement our system has shown in these areas also led the committee to choose level 3 for this indicator. Our committee did identify areas of weakness in elementary math and Tier III student placement in high school classes. These areas lack procedures to track student achievement and readiness.

Standard 5.5

We believe we have achieved a level three rating on Indicator 5.5 because our district curriculum supervisors conduct regular walkthroughs to observe teaching practices and student engagement. Our district prints its mission statement in the student handbook, which every student receives, and each school has its mission statement posted in multiple areas onsite, as well as on the school's website. Schools communicate student achievement via parent meetings, as well as AYP status letters. Each school maintains a Continuous Improvement Plan that is updated and reflected upon regularly. We believe that we could improve in the area of communication with our stakeholders by employing more varied delivery methods, such as turning on the Home Portal access on iNow and increasing the parent information on the schools’ and district’s websites. We also would like to improve communication between supervisors at the district level and their respective school leaders, and, in turn, between the school leaders and their staff members.
